Blepharoplasty, Care After Surgery
(Cosmetic Eyelid Surgery)

Refer to this sheet in the next few weeks. These discharge instructions provide you with general information on caring for yourself after you leave the hospital. Your caregiver may also give you specific instructions. Your treatment has been planned according to the most current medical practices available, but unavoidable complications occasionally occur. If you have any problems or questions after discharge, call your caregiver.

SEEK MEDICAL CARE IF:
- You develop bleeding.
- You develop redness, swelling, or increasing pain in your eyelids.
- You develop facial pain.
- You have pus coming from the wound.
- You have an oral temperature above 102° F (38.9° C).

SEEK IMMEDIATE MEDICAL CARE IF:
- You develop a rash.
- You have difficulty breathing.
- You develop any reaction or side effects to medications given.
